Program Pricing for 2026-27

Program Cost

The program fees listed below are paid directly to Eagle Academy via our online payment system and are utilized in paying for our facility, insurance, and miscellaneous needs throughout the year.

Early Application Fee, if enrolled by March 31, 2026

- \$200 for first student
- \$100 for each additional student

Standard Application Fee, if enrolled by April 30, 2026

- \$250 for first student
- \$100 for each additional student

Summer Application Fee, if enrolled May 1, 2026 or after

- \$300 for first student
- \$100 for each additional student

Senior Fee (does not include cap and gown)

- \$100 per senior

Tuition

Tuition fees will be paid directly to instructors via our online payment system.

1.5 hour class = \$350 per year

1 hour class = \$260 per year

- Single-semester classes are pro-rated to \$130 per semester

Eagle Academy recommends paying instructors in quarterly payments, which are initiated on August 1, October 1, January 1, and March 1. Payment-in-full is also an available option, if desired.

Class Fees

Several of our classes need additional supplies and have an associated class fee. If a class has a fee associated with it, the fee will be listed in the course description. Science and Personal Finance fees are paid to Eagle Academy to cover lab supplies and online curriculum requirements and are collected at the same time as paying your application fee. All other class fees are paid directly to instructors and are paid at the time you pay tuition.

Study Hall Fees

Study halls are monitored by an adult and are an opportunity for students to complete academic assignments. Students are **NOT** to use study hall times to take exams or quizzes assigned by Eagle instructors. **Study hall fees are \$25/semester**, are payable in full, and are collected online at the same time as paying your application fee.

Financial Commitment, Refunds, & Insufficient Funds

Tutorial instructors agree to teach, purchase supplies, and plan their year based on the number of students enrolled in their class. In addition, the Eagle Board makes programming decisions based on enrollment numbers. As such, if a family chooses to withdraw from Eagle Academy or drop a class any time after they have completed online checkout, they do so with the understanding that they are committed to paying for any remaining school fees even if the student no longer attends classes. Likewise, there are no refunds for any tuition payments or fees. For a full list of tuition and fees, please see our Course Catalog.

If at anytime your account has insufficient funds, a fee will be charged in accordance with any bank charges incurred by Eagle Academy or an instructor.

Course Descriptions

English and Literature Department

Our middle school English courses are from the Institute for Excellence in Writing. IEW is an exceptional skill-building program, which requires an incremental, working knowledge of the course's development. The entry-level class, English Structure & Style Level B, is recommended for any middle school student taking IEW for the first time, regardless of their grade level.

Literature books are listed in order of their use throughout the school year and can be purchased or rented from the library. Please be sure to obtain these books in advance so your student is properly prepared for class assignments.

Classics Club

This **one-semester course** will allow students to enjoy a discussion-based class featuring several beloved classics. Homework will consist of reading the books at home, and class time will feature guided discussion. The aim of this class is to introduce students to understanding and analyzing literature using Socratic questioning and to have them become familiar with some of the best authors of the 20th century. A project will be due after the completion of each book.

English Structure & Style Level B

Join IEW as we lead students on a writing journey using IEW's Structure and Style approach. The curriculum provides clear, daily assignments and includes vocabulary words. Easy to use and affordable, Structure and Style® for Students brings a successful solution to your writing lessons—guaranteed! In class, students will receive full instruction while being offered question and answer sessions. The instructor will provide recommended reading for students.

English 9

This course gives your student a balance of grammar and writing while reading a deep variety of literature. Entertaining class projects help boost reading comprehension and give opportunities to collaborate. The introduction to key concepts of analysis build a solid foundation for comprehension, interpretation, and multiple forms of writing in the future.

English with American Literature

The themes presented in these key works of struggle and victories of early Americans will help students better understand their nation. Confident readers, researchers, and writers will emerge as they prepare for future high school and college classes. They will use their skills to interpret the meaning of various forms of literature, write creatively in response to that literature, and complete research-based writing using MLA format.

English with British Literature

This study of British Literature walks us through the progression of writing, from one of the first recorded fictional stories to works written in more modern times, and gives us a rich historical and cultural background. Students will continue to grow as confident readers, researchers, and writers and will further strengthen their skills to interpret the meaning of various forms of literature, write creatively in response to that literature, and complete research-based writing using MLA format.

English with World Literature

Your student will enjoy a great selection of world literature taught from a biblical perspective using BJU's Fundamentals of Literature as our core textbook. Although this is traditionally a 9th-grade textbook, the selections are appropriate for all high school levels. The six units entitled Conflict, Character, Theme, Point of View, Structure, and Tone will allow for a seamless supplementation of engaging and higher-level pieces of prose and poetry. Students will develop vocabulary, reading, and critical-thinking skills while studying the various pieces.

Grade Level: 10th-12th

Instructor: Shawna Shoemaker

Class Minimum Size: 4 students

HS Credit: 1.0 English credit

Books	Author	SKU
<i>Fundamentals of Literature Student Edition — 3rd ed.</i>	BJU Press Student Edition	540286
<i>Students will also read two books of their choosing each semester.</i>		

English with Advanced Writing

The goal of this course is to first build confident writers and then challenge them toward their next steps. We will focus on many forms of writing, including literary analysis, informative essays, descriptive writing, statements of argument, persuasive writing, and research-based writing using MLA & APA formats. While writing is a primary focus of this course, the standards required for upper-level English class are met through the literature we will read and discuss together. This class will serve as great preparation for college writing, and students of all writing levels are welcome.

History Department

Using a variety of curricula, our history department provides students with exciting and informative facts from every era. One such curriculum, BiblioPlan, provides a classical, multi-level history program for homeschoolers in the areas of Biblical History, World History, and Church History, from creation to modern times. Full-color pages feature a basic text, bolded Scripture, and color-coded sidebars covering such proprietary topics as Fascinating Facts, Scripture Spotlights, Interesting Individuals, Giants of the Faith, and other engaging information.

Mapping the World

Students can become junior cartographers and learn to map the world with this wonderful aid to geographical literacy. Extraordinary results are achieved by using this incremental program, which gives students a real sense of the world's layout. Students will develop both map-drawing and map-reading skills as they focus on ten regional maps: Canada, US, Mexico, Central America, South America, Africa, Europe, E. Europe and N. Asia, South Asia, and Oceania.

America's Story 1

America's Story 1 begins at the infancy of the American nation. Our journey will take us through the founding of our great nation, catching glimpses of the men who would become known as the Founding Fathers. Students will utilize the *America's Story 1 Timeline Pack* and create a full-color timeline using high-quality images and a timeline strip. This will be a hands-on project, making the learning process fun and assisting students in retaining the information.

Grade Level: middle school

Instructor: Nikki Robinson

Class Minimum Size: 4 students

***Class not offered 2026-27**

America's Story 2

America's Story 2 continues the journey through American History from the Civil War to the early 1900s. As a class, we will travel through the conflict, resolution, controversies, and successes of a fledgling nation becoming One Nation Under God. Students will use the *America's Story 2 Timeline Pack* to create a full-color timeline using high-quality images and a timeline strip. This will be a hands-on project, making the learning process fun and assisting students in retaining the information.

America's Story 3

America's Story 3 concludes the series by exploring American History from the early 1900s to Modern Times. This look back in time gives students glimpses of the excitement, heartaches, wonders, and challenges America has experienced as a nation in recent decades. Students will use the *America's Story 3 Timeline Pack* to create a full-color timeline using high-quality images and a timeline strip. This will be a hands-on project, making the learning process fun and assisting students in retaining the information.

Ancient History

Biblioplan Year One covers World and Biblical History from Creation through the Fall of Rome. On the World History side, we start with the four oldest known civilizations: Egyptian, Sumerian, Harappan, and Chinese. It flows from there to the great empires of the Ancient Near East—from Egyptian and Akkadian to Assyrian, Babylonian, Hittite, Persian, and more. Then come the Greco-Persian Wars, Classical Greece, the Roman Republic, and the Roman Empire. Mixed in are empires and cultures from China, India, the Americas, and Africa beyond Egypt. Since the events in the Bible all happened in ancient times, all our Biblical History falls in Year One. Later years cover Church History and Christian missions.

Grade Level: 9th

Instructor: Greta Gilliland

Class Minimum Size: 5 students

HS Credit: 0.5 World History credit

0.5 World Geography credit

US History

This class will explore the people, places, and principles that have built America. From before the colonial days all the way to modern-day America, students will study and discuss our nation's rich history. They will read the historical narrative, primary source texts, and the Bible as we journey into America's past.

Grade Level: 10th-12th

Survey of World History

This course is designed for upper-level high school students to practice and develop independent learning. They will journey on a trip around the globe as they study history — from creation to today — and expand their Christian worldview while forming their own understanding of events. *So Noted!* is a Bible commentary focusing on the Book of Genesis. The author’s notes will strengthen your student’s faith and understanding of Genesis — the foundational Word of God.

2 CORINTHIANS 9:15

Mathematics Department

Math-U-See is a comprehensive math curriculum program, ideal for homeschoolers. Each level concentrates on a specific set of skills, while continuously reviewing and integrating topics and concepts presented in previous levels.

New to Eagle and unsure what level your student should take? Please use this placement tool for students in 6th-8th grade that have not yet completed Pre-Algebra: placement.mathusee.com. For levels beyond Pre-Algebra, please take note of the prerequisites listed in each description.

Math-U-See Epsilon

Ideal for students that have learned basic operations with whole numbers, students will progress to these same operations with fractions. Fractions are presented in an intuitive way with visual explanations of equivalent fractions, common denominators, and fractions and numbers larger than one. Major skills include recognizing and generating equivalent fractions and fluently understanding addition, subtraction, multiplication, and division of fractions and mixed numbers. Families have the option of purchasing Fraction Overlays (manipulatives) for at-home use, but a set will also be available in the classroom for student use. Read more about *Epsilon* here: <https://store.demmelearning.com/math-u-see/general-math/epsilon/>

Grade Level: 6th

Instructor: Carole Miller

Class Minimum Size: 3 students

Books	Author	ISBN
<i>Math-U-See Epsilon Level Up Set</i> <i>OPTIONAL: Fraction Overlays</i>	Math-U-See www.christianbook.com	WW500548

Math-U-See Zeta

In this level students will learn to complete core operations with decimals in addition to being presented with the connections between fractions and decimals. Families have the option of purchasing an Integer Block Kit and Algebra/Decimal Inserts (manipulatives) for at-home use, but a set of each will also be available in the classroom for student use. Read more about *Zeta* here: <https://store.demmelearning.com/math-u-see/general-math/zeta/>

Grade Level: 6th-7th

<i>Math-U-See Zeta Level Up Set</i> <i>OPTIONAL: Integer Block Kit</i> <i>OPTIONAL: Algebra/Decimal Inserts</i>	Math-U-See www.christianbook.com	WW500674

Math-U-See Pre-Algebra

The *Pre-Algebra* level of Math-U-See covers negative numbers, the order of operations, solving for the unknown, number lines, and more. Families have the option of purchasing an Integer Block Kit and Algebra/Decimal Inserts (manipulatives) for at-home use, but a set of each will also be available in the classroom for student use. Read more about *Pre-Algebra* here:

Geometry

The *Geometry* level of Math-U-See covers points, lines, angles, circles, triangles, quadrilaterals, the Pythagorean Theorem, conic sections, proofs, and more. Major concepts include describing points, lines, rays, line segments, angles, and planes; calculating the measure of the interior and exterior angles of a regular polygon; understanding the geometry of a circle, sphere, and ellipse; understanding and computing volume and surface area of solids; using the Pythagorean Theorem to identify triangle attributes; applying postulates, theorems, definitions, and properties to geometric proofs. Read more about *Geometry* here: <https://store.demmelearning.com/math-u-see/secondary-math/geometry/>

Grade Level: 9th-10th

Instructor: Leah Ulmer

Class Minimum Size: 6 students

HS Credit: 1.0 Math credit

Books	Author	ISBN
<i>Math-U-See Geometry Universal Set</i>	Math-U-See www.christianbook.com	WW504516

Algebra 2

The *Algebra 2* level of Math-U-See covers factoring polynomials, quadratic formula, graphing conic sections, rational expressions, imaginary and complex numbers, and more. Major concepts and skills include simplifying multiple-degree rational expressions; working with imaginary and complex numbers; understanding and applying the Binomial Theorem; solving basic quadratic equations with factoring; applying analytic geometry to conic sections; solving simultaneous equations using graphing, substitution, and elimination. Read more about *Algebra 2* here: <https://store.demmelearning.com/math-u-see/secondary-math/algebra-2/>

Consumer Math

This high school math course equips students with the real-world math skills they need for making wise financial decisions. Rooted in biblical stewardship, this course helps teens apply math to everyday life with confidence. It's a practical, values-based approach to preparing students for financial independence and responsibility. Please note that this is a math course, NOT a personal finance course although there is definitely some overlap in topics.

Grade Level: 11th-12th

Instructor: Christie Brassier

Class Minimum Size: 4 students

HS Credit: 1.0 Math credit

Books	Author	ISBN
<i>Master Books Consumer Math Set</i>	Master Books	9781683444237

Science Department

The science program at Eagle Academy gives a solid foundation in all areas of science—a foundation firmly anchored to scriptural truth. Learning is assured through accurate, interesting writing, carefully planned demonstrations, chapter terms and questions, and full-color illustrations.

Three of our courses — Physical Science, Chemistry, and Physics — require a certain level of math experience. **If your student is new to Eagle**, please make an honest assessment of their skill level before enrolling in one of those listed courses. The math prerequisites needed for each of those classes are located in the class descriptions on the subsequent pages.

Life Science: Order & Design

From exploring the creatures occupying your backyard, to studying the species that inhabit the rainforest, your student will receive a greater understanding of the beautiful world God has created. Topics included in this impressive text are: healthy living, exploring the animals of the sea, looking deep into the human body, the intricate designs of plant life, and more! Working together, students will be participating in class discussions and experiments, which will enrich their understanding of the material.

Grade Level: 7th

Instructor: Nikki Robinson

Class Minimum Size: 4 students

Earth Science

This laboratory-based earth science course covers the general properties of the earth's geosphere, hydrosphere, and atmosphere. In the first semester, students will dig deep to discover soil, rocks, minerals, and the depths of the earth. We will study the rock cycle, plate tectonics, earthquakes, and volcanoes. Our fossil study will lead into a good look at the different views of both uniformitarians and catastrophists. In the second semester, we dive deep into the hydrosphere by studying waves, tides, currents, and ice. Afterwards it's up, up, and away we go, as we study our atmosphere, weather, and pollutants. Our study ends in space to cover the solar system and the universe.

Grade Level: 8th

Instructor: Nikki Robinson

Class Minimum Size: 3 students

Biology: God's Living Creation

This lab-based course is a comprehensive look at the living organisms in each of the 5 Kingdoms. Some major concepts we cover include: classification, criteria and chemical processes for life, cell design, DNA and RNA, genetics, photosynthesis and cellular respiration. This course includes 4 dissections that will be performed in the second semester (earthworm, crayfish, perch and frog.)

Physical Science: Matter & Energy

This lab-based course is filled with fascinating topics to enhance our understanding of the physical world. Students will cover the scientific method, forces and motion, energy, heat, light and sound, electricity, and introductory chemistry!

Please note: This course is designed for 10th graders who have completed Algebra 1, but will be open to mathematically strong 9th graders who simultaneously enroll in Algebra 1.

Marine Biology

This lab-based course explores the marine environment and the organisms that make it their home. We complete an in-depth study of 32 marine animals, in-class experiments, and 3 dissections (clam, seastar, and shark.) Class includes lecture, video, and detailed drawings. Some major concepts covered include: geography of the ocean, marine invertebrates/vertebrates, the intertidal zone, estuaries, coral reefs, the deep ocean, ocean resources and humans' effect on the sea. Please confirm with your umbrella school that they will accept Marine Biology as a science credit before enrolling. Our expectation is that most will, but since this offering is new at Eagle, we ask you to make sure with your particular school.

Please note: Students MUST have completed a high school Biology course prior to taking this class.

Chemistry

This award-winning course includes sixteen chapters that cover topics such as the classification of matter, atomic structure, chemical bonding, physical change, chemical change, and more. Concepts are woven together with their mathematical applications to help students learn to think like chemists. Forty-six experiments are included and will be conducted throughout the year. Students must have access to a computer & internet in order to use online class material.

Please note: Students must have completed Physical Science & Algebra 1 — with a confidence in balancing equations — to take this course.

General Electives

In the middle and high school years, elective courses give students the opportunity to enjoy classes outside of a prescribed plan of coursework. This allows them to pursue other interests they may have, which can afford them a more "well-rounded" education. Listed below are the electives offered at Eagle Academy. A student may also take a "core" class as an elective if they have already met their minimum requirement for graduation in that subject area.

Intro to Speech

This **one-semester course** will focus on storytelling, interview skills, speech writing, and delivering. Watching sample speeches and critiquing them will give students added insight into the importance of body language, intonation, preparedness, and organization. Students will build confidence in an encouraging environment as the instructor shares constructive feedback. No previous experience is necessary.

Grade Level: middle school

Instructor: Connie Peacock

Class Minimum Size: 4 students

No books required
\$5.00 class fee, payable via the online payment system

Speech and Debate

This **one-semester course** will focus on how to persuade, inform, and influence an audience. Students will be learning logical fallacies, traditional logic techniques, and Aristotle's approach to rhetoric to drive argumentation skills. No previous experience is necessary.

Grade Level: high school

Instructor: Connie Peacock

Class Minimum Size: 4 students

HS Credit: 0.5 Elective credit

No books required
\$5.00 class fee, payable via the online payment system

ACT Prep

This **one-semester course** will teach techniques specific to the ACT and will sharpen students' test-taking skills with the aim to help them improve their scores. We will discuss strategies and do multiple sample questions for English, Reading, Math, and Science. Students will also take several practice tests in these four areas, which builds familiarity and confidence.

Grade Level: 10th-12th

Instructor: Christie Brasser

Class Minimum Size: 6 students

HS Credit: 0.5 Elective credit

Books	Edition	ISBN
<i>TBD - Waiting to see if a new edition is released</i>		
<i>PrepPros: The Complete Guide to ACT Math</i>	2nd	978-1737183815
*Due to the new test format, older editions of these books WILL NOT work. Make sure you have the correct ISBNs. Unfortunately, it may be difficult to find a used version due to how new they are.		
\$5.00 class fee, payable via the online payment system		

College Prep

This **one-semester course** is for college-bound juniors and seniors. The bulk of the class will be spent finding and applying for scholarships. We will also cover various themes each week such as: what to look for in a college, the difference between grants, scholarships, and loans, things to consider when looking for a school, good habits while at school, and much more. Additionally, we will cover information regarding the FAFSA, TN Promise, TN Hope, dual enrollment, and CLEP tests. There will also possibly be a day during the semester that parents will have the option to join us so that they have the information necessary to help their students. Students must have access to a laptop that they can bring to class.

Grade Level: 11th-12th

Instructor: Christie Brasser

Class Minimum Size: 6 students

HS Credit: 0.5 Elective credit

Books	Author	ISBN
There will be an e-book to purchase. The instructor is working on a group discount and trying to figure out an inexpensive way to print. It is possible that you will purchase the ebook yourself or pay the instructor a fee and she will purchase and print.		

Stand

This discussion-based **\$50 year-long class** is designed for high school students who want to grow deeper in their faith and learn how to stand firm in their beliefs in a rapidly changing culture. Students will examine cultural influences, personal identity, and what it looks like to live out their faith with confidence. This class encourages respectful conversation, critical thinking, and spiritual growth in a supportive environment. Homework is light and typically includes a short podcast or assigned reading to prepare for class discussions.

Grade Level: high school

Instructors: Jamie Kirschner

Class Minimum Size: 4 students

HS Credit: 1.0 Elective credit

Books	Author	ISBN
<i>Love Riot</i>	Sara Barratt	9780801094408
\$30.00 supply fee, payable via the online payment system		

Entrepreneurship

Students will learn the foundations of entrepreneurship by turning their ideas into real business projects. They will develop a growth mindset and leadership skills while designing and testing their own business concepts. Students will explore branding, marketing, and storytelling to create a business that stands out. They will also practice managing finances, sales, and resources to make their ideas successful. Students will also have the opportunity to pitch their businesses and receive feedback, preparing them to take their ideas from concept to reality. These skills will be useful in business, marketing, leadership, and future entrepreneurial ventures.

Grade Level: high school

Instructors: Jamie Kirschner

Class Minimum Size: 4 students

HS Credit: 1.0 Elective credit

Supplies
Students will need a computer or tablet for in-class work.
\$30.00 class fee, payable via the online payment system

Graphic Design

In this course, students will learn the basics of graphic design. They will create a brand unique to the students of Eagle Academy by crafting a yearbook they can market and sell. Students will learn the art of photojournalism, including how to take compelling photos and write captivating stories. They will learn how to effectively interview their peers and instructors using information to create a dynamic yearbook and video for the End-of-Year Celebration. Students will also get an opportunity to create their own brand for a mock business. These skills will be useful in entrepreneurship, advertising, business, marketing, videography, and journalism.

Grade Level: all ages

Instructor: Jamie Kirschner

Class Minimum Size: 4 students

HS Credit: 1.0 Elective credit

Supplies
Students are encouraged to bring a camera to class if they have one. They will need a computer for in-class work.
\$20.00 class fee, payable via the online payment system

Computer Department

With computer literacy being vital to the success of today's students, these courses are offered as a means to innovate with technology, increase logical reasoning, and strength problem-solving skills well beyond the classroom.

Computer Coding 1

This **one-semester course** will be a project-based introduction to coding with Scratch. Students will learn the basics of computer programming by creating a number of fun projects.

Please note: students must have a Windows or macOS laptop computer for in-class work and programming assignments.

Grade Level: middle school

Instructor: Michael Brasser

Class Minimum Size: 4 students

***Class not offered 2026-27**

Books	Author	ISBN
<i>Coding Projects in Scratch</i>	Jon Woodcock	978465477347
<i>Coding Games in Scratch (new edition)</i>	Jon Woodcock	9780593841860

Computer Coding 2

This **one-semester course** will build on skills learned in Computer Coding 1, and extend them to working with the BBC micro:bit pocket-sized computer. Like Coding 1, the class will be project-based. The bulk of the work will be done in class, with minimal homework.

Please note: Students should be able to type with basic proficiency and must have a Windows or macOS laptop computer for in-class work and programming assignments.

Grade Level: middle school

Instructor: Michael Brasser

Class Minimum Size: 4 students

***Class not offered 2026-27**

Books	Author	ISBN
<i>Micro:bit and accessories provided by instructor</i>		
\$35.00 class fee, payable via the online payment system		

Beginner Typing

This **one-semester course** will teach students the basics of computer-keyboard typing using enhanced interactive software. Typing lessons, tests, and games will be incorporated in order to advance skills and improve typing speed. Keyboard layout, hand placement, and touch typing are a few of the focuses of this class. Students will need a computer and internet access for at-home assignments.

Please note: students must bring a charged laptop to each class.

Grade Level: 8th-10th

Instructor: Leeann Cooper

Class Minimum Size: 3 students

HS Credit: 0.5 Elective credit

Supplies
\$15.00 class fee, payable via the online payment system

Computer Applications

In today's world it is crucial that students understand how to utilize the technology around them. Using Microsoft Office applications, students will receive hands-on training and will be able to create professional-looking projects by the end of the year. These programs are critical for students to learn for the present and future, as they will be better prepared for the job world and any other computer-driven classes they plan to take.

Please note: students must bring a charged laptop to each class and must have full access to Microsoft Office already downloaded onto their device.

Fine Arts Department

Drawing

Instruction for Drawing class is based on "Drawing from the Right Side of the Brain," a technique that allows students to draw what they see instead of what they *think* they see. This technique gives instruction on how to draw the intricate details that make a drawing look "real," while also enabling the students to portray their projects with perspective and proportion. As the year progresses they will learn shading techniques and will use other mediums such as pen, ink, and colored pencils. After a few basic drawings are completed, students will be allowed to choose from other materials supplied and will progress at their own speed. They will be required to choose their own drawing references each week. Based on specific supply needs, this class has no homework requirement (resulting in no HAS Forms), which produces a deficit in hours to fulfill a high school Fine Arts Elective credit. Parents are encouraged to combine the 32 class-time hours with other, outside activities in order to reach a half or full credit.

Please note: This class may be taken more than once and there is no prerequisite.

Grade Level: all ages

Instructor: TBD

Class Minimum Size: 6 students

HS Credit: Approx. 0.25 Fine Arts Credit

Supplies
\$30.00 class fee, payable via the online payment system

Advanced Drawing & Mixed Media

This will be an advanced-level 2D art class similar to college-level drawing 101 or 2D-design, with additional mediums being provided in the second semester. We will focus on advanced drawing techniques and drawing from real life, then we will dive into more mediums such as watercolor and oils to broaden our knowledge and understanding of art mediums. First semester's work — consisting mostly of drawing and charcoal — will include working from a still life, practicing techniques such as cross hatching, and learning high contrast. Second semester will introduce watercolor and oil painting. Most references will be provided in class but some projects will require the student to bring an inspiration reference. Based on specific supply needs, this class has no homework requirement (resulting in no HAS Forms), which produces a deficit in hours to fulfill a high school Fine Arts Elective credit. Parents are encouraged to combine the 32 class-time hours with other, outside activities in order to reach a half or full credit.

Please note: Students must have completed at least one Drawing/Mixed Media class with Amanda Phillips to take this course.

Grade Level: all ages

Instructor: TBD

Class Minimum Size: 6 students

HS Credit: Approx. 0.25 Fine Arts Credit

Supplies

\$50.00 class fee, payable via the online payment system (students should also bring supplies from previous class)

Watercolor

This class is focused on the necessary skill to create art projects with the watercolor medium. Beginning with drawing foundations and basic art techniques, we will dive into composition, gesture drawings, color theory, and many other techniques to properly lay out a watercolor creation. We will then begin learning paint and brush techniques to create effective watercolor paintings. I will push creativity and encourage students to try new things. This establishes individual style and correct practices that can be used for a lifetime. Students will be required to choose their own painting references after those foundational projects are complete. A guideline to stay within will be provided, but students are free to select references that interest them most. Based on specific supply needs, this class has no homework requirement (resulting in no HAS Forms), which produces a deficit in hours to fulfill a high school Fine Arts Elective credit. Parents are encouraged to combine the 32 class-time hours with other, outside activities in order to reach a half or full credit.

Please note: This class may be taken more than once and there is no prerequisite.

Grade Level: all ages

Instructor: TBD

Class Minimum Size: 6 students

HS Credit: Approx. 0.25 Fine Arts Credit

Supplies

\$35.00 class fee, payable via the online payment system

Choir

Music is a gift from God and is designed for praise, worship, inspiration, and enjoyment. Students are encouraged to develop their musical abilities to their fullest potential while honoring the Lord through excellence. This is a non-auditioned, full-year choral ensemble, open to middle and high school students with any choral background or a passion for developing in the area of music. The purpose of this choir is to bring glory to God through the performance of music. The course of study consists of developing proper vocal technique, ear training, sight reading, music theory, music listening, historical knowledge, and ensemble singing. Students will experience a range of exposure from appropriate genres and time periods to the purpose and implementation of Praise & Worship music in our lives as believers.

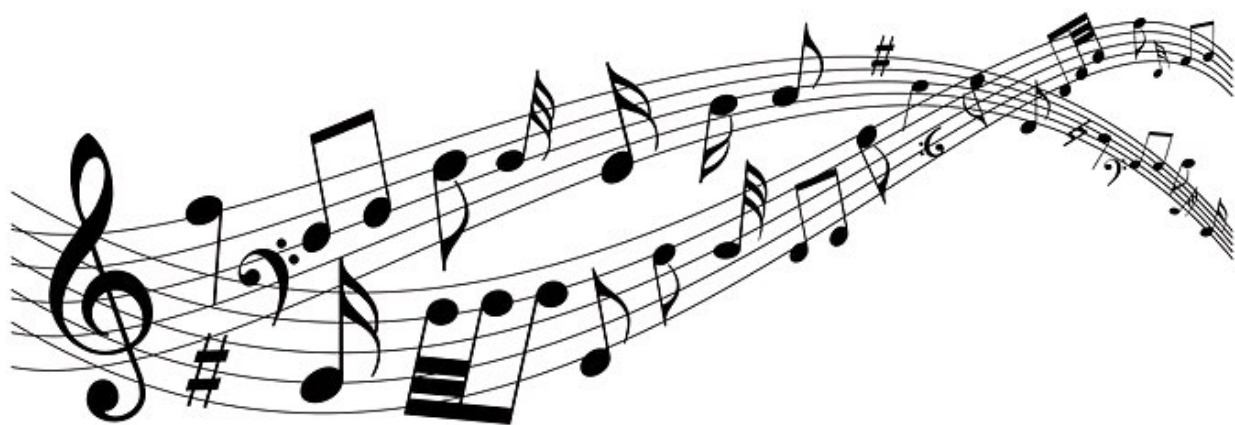

Grade Level: all ages

Instructors: Leeann Cooper (middle school)
Wallicia Smith (high school)

Class Minimum Size: 5-6 students

HS Credit: 1.0 Fine Arts Credit

Supplies
\$20.00 class fee, payable via the online payment system

Music Appreciation

This **one-semester course** will explore the history of the recording industry including how music was recorded in the past and how it's recorded today. Listening and analysis will benefit students in their comprehension and identification of music genres and elements of music.

Grade Level: high school

Instructor: Wallicia Smith

Class Minimum Size: 4 students

Supplies
\$15.00 class fee, payable via the online payment system

Song Writing

This **one-semester course** is designed for both beginners and experienced songwriters who want to improve their skills. We will cover the basics of songwriting and students will be given an opportunity to use this creative setting to write and collaborate with others. We will concentrate on lyric writing and song construction as we learn the different songwriting forms.

Grade Level: high school

Instructor: Wallicia Smith

Class Minimum Size: 4 students

Supplies

\$15.00 class fee, payable via the online payment system

Music Theory

In this class we will learn to read music, count the different types of musical notes, and play basic piano together. Students will also enjoy fun, interactive rhythmic and counting exercises.

Grade Level: all ages

Instructor: Mike Petty

Class Minimum Size: 4 students

HS Credit: 1.0 Fine Arts Credit

Books

Music Theory Workbook

Author

9780793533923

\$5.00 class fee, payable via the online payment system

Worship & Technical Arts 1

This 1.5 hour elective will afford students adequate hands-on experience with our state-of-the-art worship equipment. We will explore several units of study and students will utilize what they have learned in weekly practical performances. The goal is to have students set up, perform, and break down their productions confidently by year's end. No experience is necessary.

Grade Level: all ages

Instructor: Jim Patten

Class Minimum Size: 8 students

***Class not offered 2026-27**

Supplies

\$75.00 class fee, payable via the online payment system, will cover any software licenses needed for this class

Worship & Technical Arts 2

We will build upon our previously learned skills by operating at a faster pace and by mirroring the dynamics of a real worship band. Regular practice will be essential for skill refinement and growth in this course. More technical opportunities will be given in this subsequent class, giving students more hands-on experiences.

Please note: Students must have completed Worship & Technical Arts 1 to take this course.

Grade Level: all ages

Instructor: Jim Patten

Class Minimum Size: 8 students

***Class not offered 2026-27**

Supplies

\$75.00 class fee, payable via the online payment system, will cover any software licenses needed for this class

Drama

Students will receive hands-on experience in stage performance and production. They will learn foundational theater techniques including fundamentals of stage direction and scene work. Through interactive exercises, students will cultivate their skills in character development, improvisation, voice projection, memorization, dramatic and comedic acting, live stage vs film, and production. No prior experience is necessary, just a willingness to explore, create, and have fun. There is potential for an End-of-Year Celebration performance.

Grade Level: all ages

Instructor: Bre Parker

Class Minimum Size: 4 students

HS Credit: 1.0 Fine Arts credit

Supplies

\$30.00 class fee, payable via the online payment system. Students may need to provide some costumes and props from home throughout the year.

Foreign Language Department

Intro to Sign Language

Join us as we learn the basics of this beautiful, expressive language. We will cover the alphabet, numbers, and basic conversational skills as we practice through hands-on activities each week. There will be minimal written homework, but students are expected to practice signing daily to keep their skills sharp and to increase their overall scores in class.

Grade Level: middle school

Instructor: Stacie Livingstone

Class Minimum Size: 6 students

***Class not offered 2026-27**

Books	Author	ISBN
<i>The Joy of Signing 3rd Edition</i>	Lottie L. Riekehof	1607313618

Sign Language 1

This program will offer students a basic course in American Sign Language as they learn the vocabulary necessary to communicate with someone who may be deaf or hard of hearing. We will learn and grow in our understanding of deaf culture while having fun studying a beautiful language! We will have various opportunities in class to practice and use the skills we are learning. Students will also be taught a worship song in sign language that they can perform together. The best part is, as we sign, we will shine for Jesus and use our hands to bridge the gap between the deaf and hearing worlds!

Please note: Consult your umbrella school to determine whether this class counts as a foreign language or elective credit for your high school student.

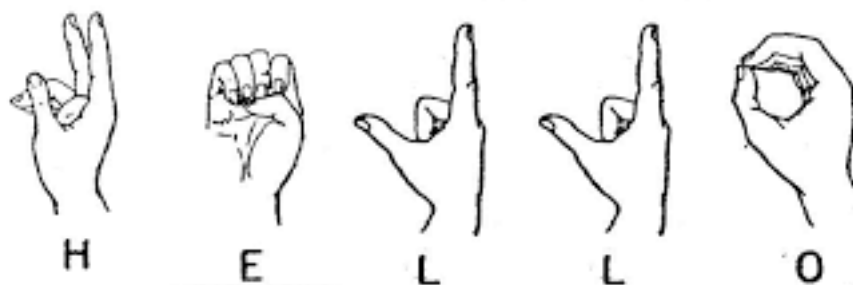

Grade Level: high school

Instructor: Stacie Livingstone

Class Minimum Size: 6 students

HS Credit: 1.0 Foreign Language Credit

Books	Author	ISBN
<i>The Joy of Signing 3rd Edition</i>	Lottie L. Riekehof	1607313618

Sign Language 2

Continuing where Sign Language 1 concludes, this program will help students progress in their understanding and fluency of American Sign Language, allowing them to communicate with someone who may be deaf or hard of hearing. We will learn and grow in our understanding of deaf culture while having fun studying a beautiful language! We will have various opportunities in class to practice and use the skills we are learning. Students will also be taught a worship song in sign language that they can perform together. The best part is, as we sign, we will shine for Jesus and use our hands to bridge the gap between the deaf and hearing worlds!

Please note: Students must have completed Sign Language 1 to take this course.

<i>The Joy of Signing 3rd Edition</i>	Lottie L. Riekehof	1607313618

Spanish 1

In this class designed for beginners, students will learn Spanish much like they learned their first language — by doing — through games, repetition, and listening to conversations. The instructor takes into consideration various learning styles and incorporates interaction, movement, and fun into the learning process. A variety of vocabulary topics will be covered and students will be able to answer basic questions by the end of the class. Grammar and spelling will be taught while studying the book “Pobre Ana” (provided by the instructor). Homework every week will include oral presentations, group activities, and written assessments. Students will need access to the “What’s App” and “Quizlet” apps for homework.

Grade Level: high school

Instructor: Pats Aguilar

Class Minimum Size: 6 students

HS Credit: 1.0 Foreign Language credit

Books	Author	ISBN
All texts and handouts provided by instructor.		
\$50.00 class fee, payable via the online payment system		

Spanish 2

We will review the basics from Spanish 1 and speak in Spanish from the first class. We will ask and answer questions and write short stories to learn the correct structure of sentences. Grammar and spelling will be naturally taught while studying a book about the adventures of a group of teenagers who are participating in an exchange program in the USA. We will also celebrate several holidays in class to learn more about the culture: Día de Muertos, birthday songs, Navidad y posadas, Día de Reyes, la Candelaria, and Día de San Valentín. Along with homework every week, the students will also be assigned oral presentations and group activities, and will be given written assessments throughout the course. Students must have access to the apps Quizlet and WhatsApp for this course.

Please note: Students must have completed Spanish 1 to take this course.

Grade Level: high school

Instructor: Pats Aguilar

Class Minimum Size: 6 students

HS Credit: 1.0 Foreign Language Credit

Books	Author	ISBN
All texts and handouts provided by instructor.		
\$50.00 class fee, payable via the online payment system		

Economics & Personal Finance

Economics

This **one-semester course** will allow students to explore the subject of economics topically through readings, videos, discussion, and assignments. This concise, thoughtfully organized, and reader-friendly book will introduce the basic principles, which primarily reflect common sense. Topics include, but are not limited to, scarcity, supply & demand, free markets, competitive trade, and opportunity cost.

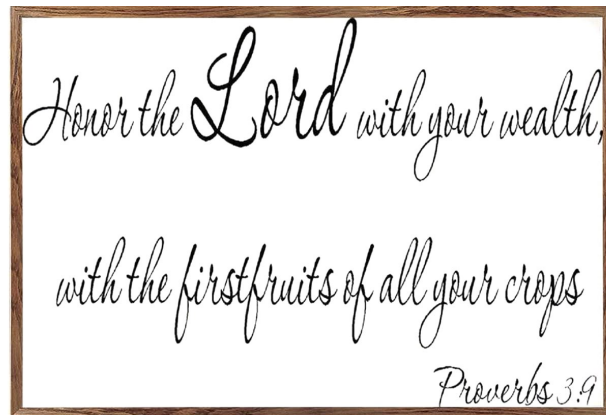

Grade Level: 11th-12th

Instructor: Christie Brasser

Class Minimum Size: 6 students

HS Credit: 0.5 History credit

Books	Author	ISBN
Text provided by instructor: <i>Common Sense Economics (4th edition)</i>	James D Gwartney, et al.	9781250292629
\$35.00 class fee, payable via the online payment system		

Personal Finance

This **one-semester course** is designed to ensure that your high school student has some practical knowledge to positively impact their personal financial success. Using Dave Ramsey's high school curriculum *Foundations in Personal Finance*, students will learn about saving and investing, credit and debt, financial responsibility and money management, insurance, income, and life after high school (college and careers). Students will utilize the online portal for their homework and classroom time will be a mix of instruction and discussion led by the instructor.

Grade Level: 10th-12th

Instructor: Mike Petty

Class Minimum Size: 4 students

HS Credit: 0.5 Personal Finance credit

Supplies
Online portal and workbook provided by Eagle Academy
\$30.00 class fee, payable via the online payment system

Wellness Department

The primary aim of these courses is to motivate students to take responsibility and initiative for maintaining their own health. Students will master the elements of nutrition, physical health, safety, and more, while deepening their understanding of God's call to honor their temple.

Physical Education

This **one-semester course** will provide students with a fun interruption from academically based subjects. An active, healthy lifestyle is promoted as they focus on exercise, various sports, and games. Students will also be given instruction for physical activity outside of class.

Please note: This class may be taken more than once.

Grade Level: all ages

Instructor: Mike Petty

Class Minimum Size: 6 students

HS Credit: 0.5 Wellness credit

No books required

Self Defense

This **one-semester course** will equip students with a foundational understanding of self-defense application and will provide them with confidence to appropriately protect themselves in real scenarios rather than what they've seen in choreographed movie scenes. Concepts learned will be recognition, posture, defenses, strikes, kicks, and weapon disarmament. Topics covered will be fight-or-flight responses, vulnerability assessments, and survival techniques. All students will be provided with instruction for continued skill practice outside of class, but shared equipment purchased with the class fees will remain with the instructor.

Please note: This class may be taken more than once.

Grade Level: all ages

Instructor: Brian Gilliland

Class Minimum Size: 5 students

HS Credit: 0.5 Wellness credit

Supplies

\$35.00 class fee, payable via the online payment system

Health

This **one-semester course** is for high school students and is designed to provide a thorough understanding of all important physical, mental, and social health issues. The text, *Total Health*, is written directly to teens from a caring and friendly perspective and presents a moral basis for a healthy lifestyle based upon scriptural principles. Topics include: anatomy, body systems, food choices, exercise, diseases (including a few STDs), stress, emergencies, responsibility, and more.

Grade Level: 10th-12th

Instructor: TBD

Class Minimum Size: 4 students

HS Credit: 0.5 Wellness credit
